

# Connect and copy data to and from AWS EC2 instance – WinSCP

Source: WinSCP

## Connect and Copy Data to/from AWS EC2 Instance

Do not have an EC2 instance? No worries! Setup new EC2 instance for FREE in 10 minutes. Article Link: [LinkedIn](#) and [Medium](#)

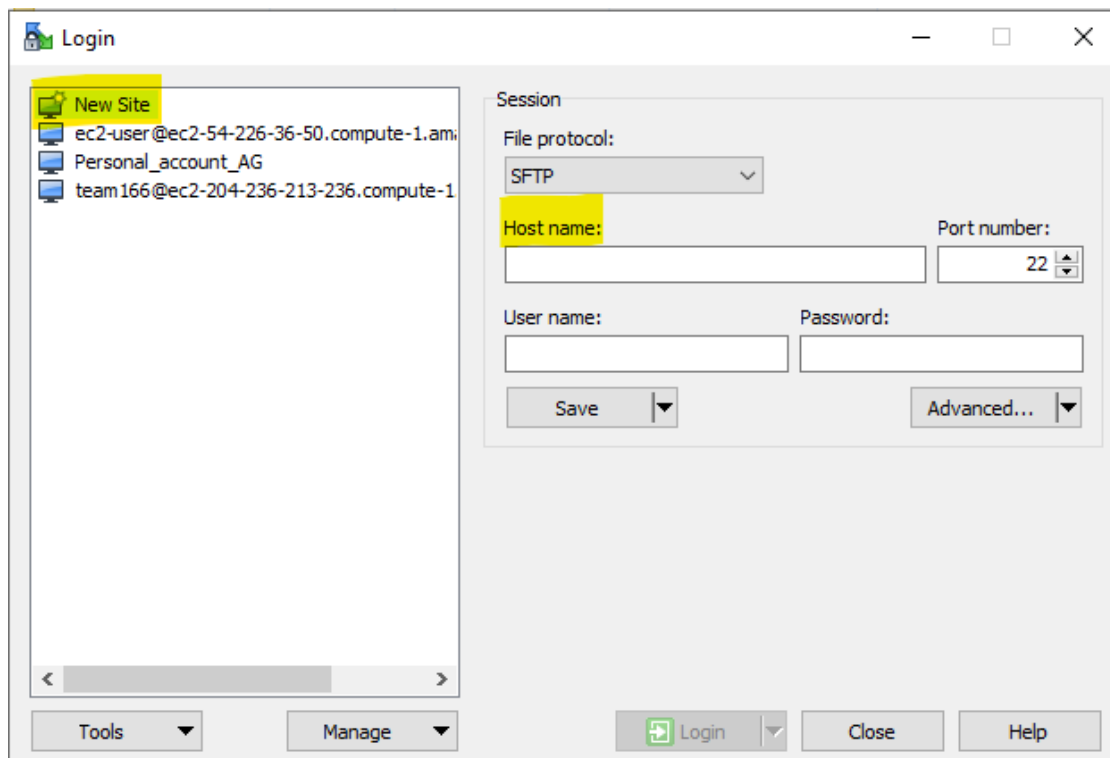

**Step 1:** Download and install WinSCP: [Link](#)

DOWNLOAD WINSKP 5.17.8 (10.6 MB)

**Step 2:** Install. Go with all the default options

**Step 3:** Start WinSCP

**Step 4:** Click on new Site. Following window will open:

Ignore other names below New Site. I created other configurations earlier.

**Step 5:** To connect to our EC2 instance we need it's Host Name. You can find this on the instances page on AWS. Login to AWS and go to running instances. To set-up instance refer to another article link: [LinkedIn](#) or [Medium](#)

Screenshot below highlight Host Name in blue. Add this to Host name box highlighted in above screenshot.

**Step 6:** In the Username add 'ec2-user'. This is default for AMI Linux. Refer to screenshot below:

Login

New Site  
Ai4Markets  
ec2-user@ec2-54-226-36-50.compute-1.am  
Personal\_account\_AG

Session

File protocol:  
SFTP

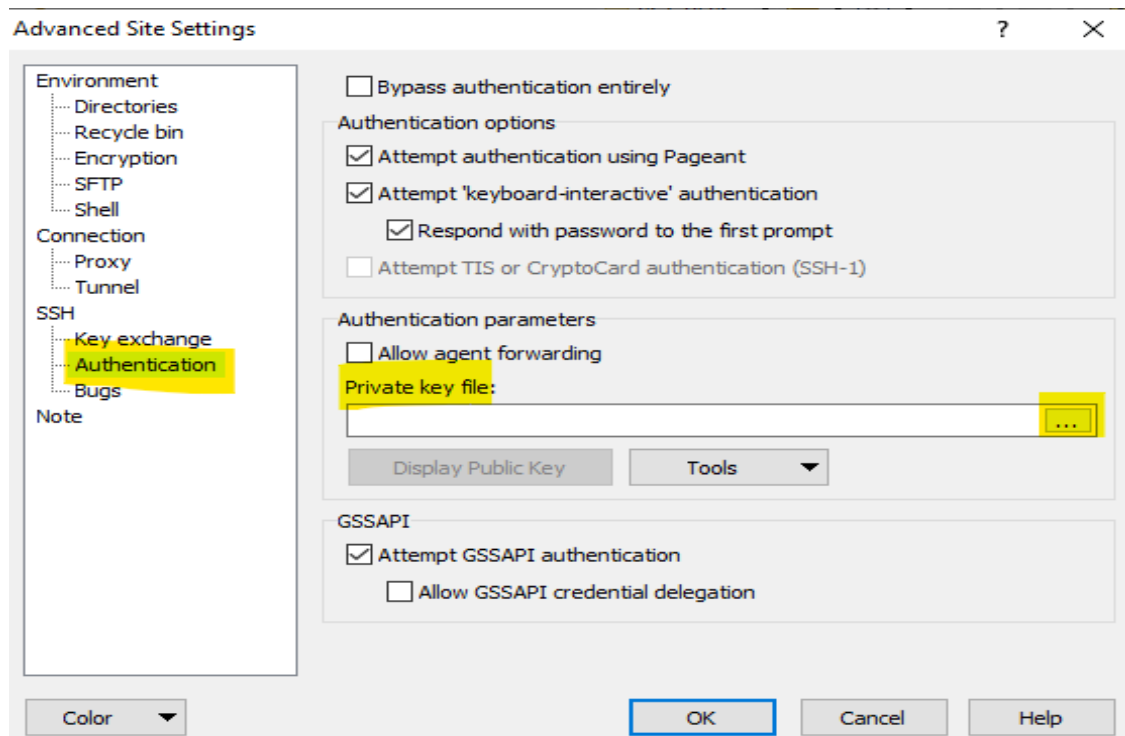

Host name: Port number:  
ec2-18-191-139-70.us-east-2.compute.amazonaws.com 22

User name: Password:  
ec2-user

Edit Advanced...

Tools Manage Login Close Help

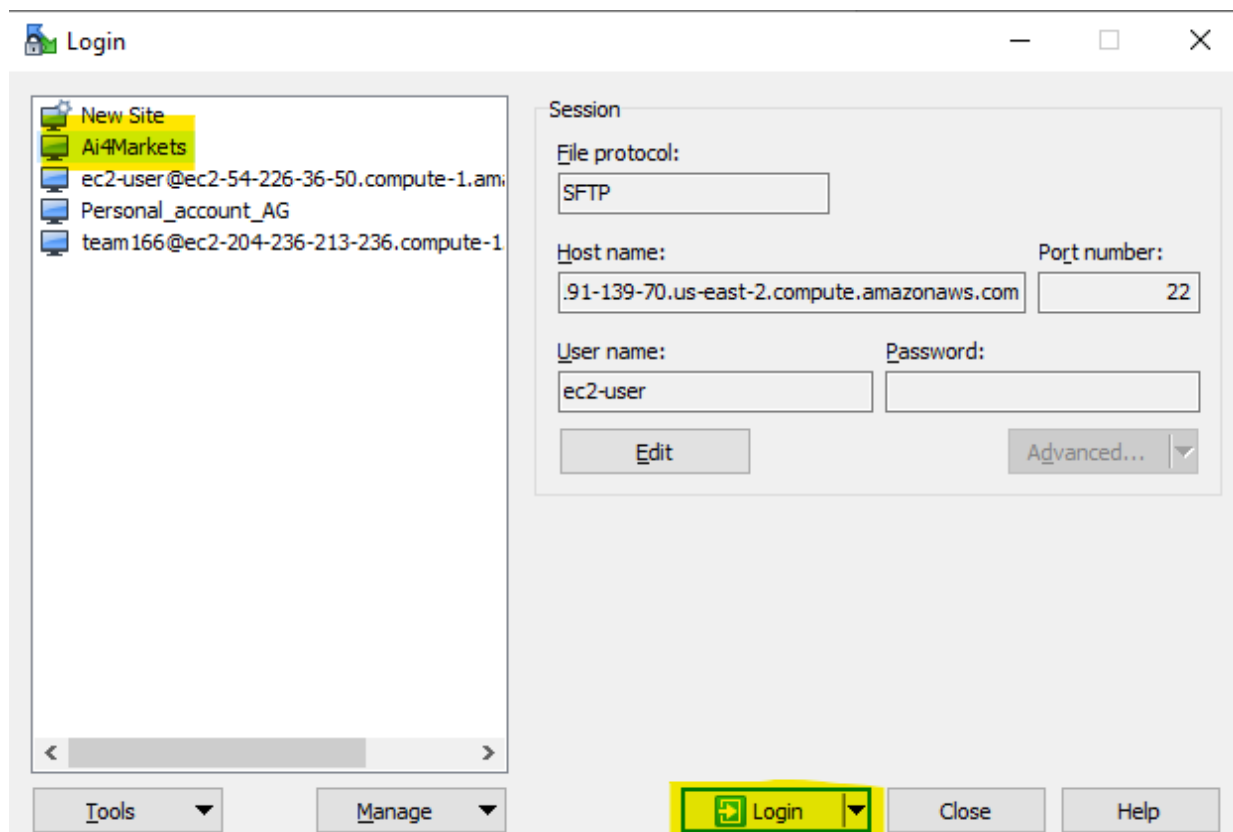

**Step 7:** Click Advanced button. Under Advanced select SSH and Authentication. We need to enter .ppk file here.

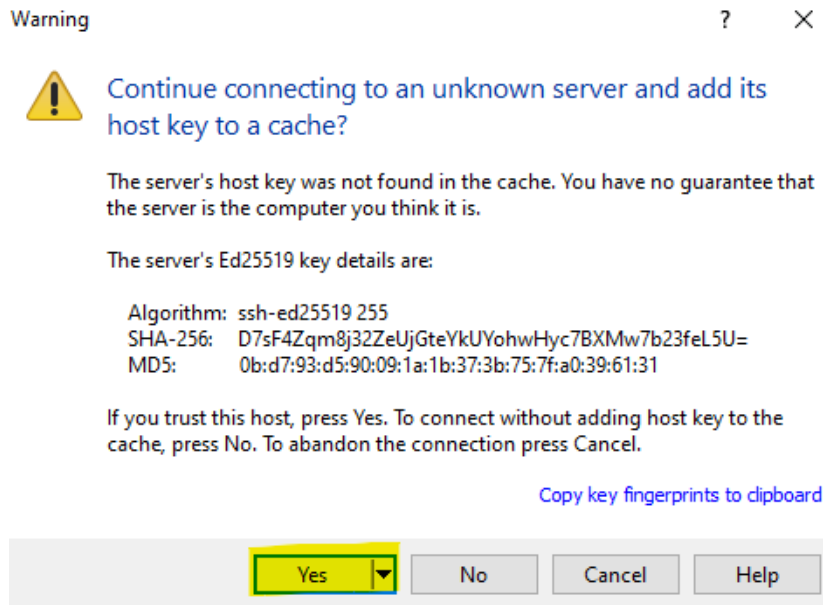

**Step 8:** Select the private key file. Created when EC2 was launched. Refer to article link: [LinkedIn](#) or [Medium](#)

**Step 9:** Save the session so that we do not want to repeat above steps to connect with EC2 instance. To save: click on save. Add Site Name as per your choice. I have added Ai4Markets

**Step 10:** Click on Login

## Step 11: You will get warning. Click yes

## Step 12: You will be logged in and see following screen. Wherein left pane is folder on your machine and right pane is EC2 instance created.

**CONGRATULATIONS!!! You have connected to EC2 instance with WinSCP and can drag and drop data between your local machine and EC2 instance.**

Happy Cloud Learning

Thank You.
